

KTC

School	Green Lane Infant School
Reading Champion	Niki Shaw
Contact email	ns@greenlane.leicester.sch.uk
Who was targeted?	Whole School
Outline of project:	
Phonics, reading and writing programme written and put together by Ann Smalberger. Systematic teaching with transferable skills through the three areas.	
Overview of the timelines, additional resources etc.	
We have been a Core school since August 2016. Ann has been into our school on several occasions for monitoring, modelling and discussions with the staff. We have occurred different kinds of resources from supply cover for training and observations to new whiteboards, pens, guided and shared reading books.	
Impact	
The percentage of children on track in reception is currently higher than the past 2 years. Data analysis has not yet been calculated for KS1 but it is looking like the impact will be mirrored here.	
Lessons learnt – advice for other schools	
KTC approach has had a significant impact on our phonics, reading and writing. As we are new to this I have looked more closely at Reception and after looking at figures and discussions with staff it is proving to have improved the children's abilities in this area. Advice would be in order to make this a success the program does have to be followed rigorously therefore only sign up if your school is fully committed.	
Estimate of costs	£12,000
